Dear Oliver, 9/8/78

Your letter saying you did not get to Washington because you didn't have the money came today. Sorry more that you don't have the money than over your not getting to Washington, although I'd have liked to see you. Washington can be a bad place for you now.

Of course I do not know what your purpose was because you did not want to go into that by phone.

There was a radio story I did not see in the papers, attributed to the committee and saying that Jimmy's handwriting was on the map. (Which I'd still like to see.)

I've heard nothing from Jerry and I've not seen Lane quoted in the papers for some time. Jimmy appears to have written to AP, with complaints against the committee.

Hope you get back on your feet soon.
